ATTRIBUTES

Just as every wrestler in the World Wrestling Frederation* is different, so is every wrestling game. Only RAW" brings each individual wrestler's true attributes to life, making this the rawest, most realistic wrestling around!

RAW" takes into account the most important aspects of a wrestler's ring abilities, so you can be sure that all the action is as close to real as can be!

While selecting a wrestler, press the SELECT BUTTON to see his or her attributes screen. Each wrestler is rated on Speed, Strength, Stamina and

Weight using a 1 to 10 scale, with 10 being the highest. A wrestler's unique combination of attributes reflects their degree of both mental and physical toughness, affecting their wrestling style and strategies.

SPEED determines how quickly the wrestler can maneuver.

STRENGTH measures a wrestler's overall might. An important indicator of a given grappler's power when punching, kicking or doing power moves.

WEIGHT is a factor which can affect the damage done by landing on an opponent when executing moves such as the elbowdrop or splash. A high weight will also prevent some wrestlers from having certain strength-requiring moves done to them.

STAMINA lets you know how much juice this wrestler has. High stamina means a wrestler will recover energy quickly.

In Raw", however, attributes are only part of the equation. Once the adrenaline starts flowing and a wrestler gains momentum, he's capable of moves that the numbers say shouldn't be possible. This means, for example, that although a given wrestler may start a match with inferior strength, he will become more able to administer brutal abuse if he has the agility to punish his opponent early and often. To view each wrestler's attributes see the individual profiles on pages 11-22.

RULES FOR WRESTLING RAW!

A ONE-ON-ONE one-fall bout finds two
grapplers competing to pin the other's shoulders
to the canvas for a three-count by the referee.
Before a wrestler can be pinned, though, he or
she has to be worn down. Strength meters for
each wrestler appear on screen depicting
exactly how much strength he or she has left.
The lower his or her energy, the better your
chances of pinning that opponent. Remember:
These are the world's greatest athletes, so

that's a job easier said than done! When wrestling outside the ring, all moves are legal. As soon as a wrestler leaves the ring, the referee begins a 10-count. A wrestler will be counted out if he or she fails to return to the ring before the count reaches 10. Wrestlers cannot be pinned outside the ring.

BRAWL matches, whether one-on-one, bedlam or tag team, are vicious matches without a referee. Anything goes, from eye gouges to chokeholds. There are no pins and no disqualifications, only the will to win and the wiles to do so! The match continues until one competitor loses the strength to carry on.

TOURNAMENT play pits one wrestler against all the others in your choice of one-fall or tag team matches. In a tag team tournament, your

duo must triumph over five other teams. The makeup of opposing teams and the order in which you face them is random.

TAG TEAM matches make for plenty of RAW" action! In order for one team to win a match, one of the wrestlers on the opposing team must be pinned. When the strength of your wrestler is low, it's time to tag your teammate, who will come in to replace you. Pressing the B BUTTON will tag your "illegal"

tag team member outside the ring, making him legal and allowing him to come in and fight the opposing wrestler. After your tag teammate enters the ring, you have until the ref counts 10 to leave it. The player outside the ring is able to hit or grab an opponent inside the ring. If that wrestler returns to the ring illegally, he or she will be subject to a ten count.

BEDLAM equals a thunderous thumping as you and a chosen teammate try to outwit and outwrestle two opposing wrestlers in a match that only ends when both of the opposing wrestlers have been pinned or counted out. When one wrestler is pinned, he leaves the ring, so for at least some of the match there will be a brutal two-on-one situation! Once a player is counted out or pinned, he or she leaves the ring and is now considered illegal.

SURVIVOR SERIES® matches pit four wrestlers against four other grapplers in a grueling contest of expanded tag team action. All four men on one team must be eliminated in order to become the Survivor Series® champion!

ROYAL RUMBLE* rules are for wrestlers who really like it RAW*! The match starts with two competitors in the ring. Wrestlers enter the ring at regular intervals until there are six wrestlers between the ropes! When one wrestler is eliminated from the match by being thrown out of the ring, a new wrestler enters until all 12 men have competed in the bout! If your wrestler is eliminated, you may elect to come in again as the next wrestler by pressing any button when you hear the bell ring. The match continues until only one grappler remains in the ring!

RAW ENDURANCE matches mean mayhem! You can use up to six wrestlers against as many as six determined opponents in a grueling series of one-on-one contests that are waged to a pinfall finish. When one wrestler is pinned, the next member of his team enters immediately, giving the winner no recovery time. The last warrior standing wins! Can you outlast this outrageous onslaught?

PASS is the option to choose if you're really ready to do it Raw, when selecting wrestlers for a multi-player match! Selecting Pass when it's time to choose your 2nd through 6th wrestlers forgoes all further choices, giving you the chance to prove your wrestling skill using a smaller team. Thus, using the Pass feature allows you to fight one-on-two, two-on-four, even six-on-one, pitting your brave grapplers against a larger, meaner squad.

BASIC MOVES AND MANEUVERS

Here are the essential basics you need to get started:

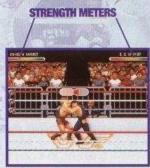

To move around the ring, press UP, DOWN, LEFT, or RIGHT on the CONTROL PAD.

To RUN across the ring, press the Y BUTTON.

To PUNCH your opponent, press the B BUTTON.

To KICK your opponent, press the A BUTTON.

To trap your opponent in a LOCK UP, press the X BUTTON while close to your opponent. While in a lock up, a meter displaying advantage will appear above your head. Pressing any button repeatedly will increase your advantage and, hence, your ability to execute offensive moves.

To lock up your opponent in a SLEEPER HOLD, walk behind and slightly above your opponent and press the X BUTTON.

You can DROPKICK your standing opponent by first running at him (press Y BUTTON), then pressing the B BUTTON. If opponent is running at you, you can dropkick him by pressing the A BUTTON.

You can deliver a FLYING ELBOWDROP to your fallen opponent by first running at him, then pressing the B BUTTON.

If opponent is running at you, pressing the B BUTTON will execute a HIP TOSS or BACK BODY DROP depending on which wrestler you are.

To leave the ring, press the CONTROL PAD to

move your man into the front or side of the ropes and press the Y BUTTON.

[NOTE: In a tag team match, exiting the ring near your partner's corner constitutes a tag and will bring your partner into the action.]

RUN LOCK UP (WHEN CLOSE)

KICK

PUNCH

To switch player control with your CPU controlled teammate, press the LEFT trigger and SELECT BUTTONS together. When these are pressed, you will immediately control another member of your team and the computer will take control of your man. The ring bell will sound to indicate that the switch has been made.

To TAG your teammate, move next to him and press the B BUTTON.

MOVE AROUND

INSIDE/OUTSIDE RING

To pause the action, press the START BUTTON. [NOTE: Pressing the START BUTTON again will resume the action. Pressing the SELECT BUTTON will cause you to exit the match and return to the main screen.]

When your opponent is lying on the mat and you're standing, you have five options:

- STOMP your opponent by pressing the A BUTTON while you're in front of your opponent.
- SPLASH your opponent by pressing the B BUTTON while you're behind your opponent.
- ELBOWDROP your opponent by pressing the B BUTTON while you're in front of your opponent.
- KNEEDROP your opponent by pressing the A BUTTON while you're behind your opponent.
- Try to PIN your opponent by pressing the X BUTTON. To roll off the pin, press the L or R BUTTON.

TURNING THE TURNBUCKLE TO YOUR ADVANTAGE

To deliver an elbowdrop from the turnbuckle, first move your man into a corner, then press UP on the CONTROL PAD to climb to the top turnbuckle. Once you've climbed the turnbuckle, press any button to unleash a flying smash! [NOTE: To climb back down from the turnbuckle, press DOWN on the CONTROL PAD.]

To throw your opponent into the turnbuckle, win the lock up using the Y BUTTON near the top of the ring. Once they are on the turnbuckle, you can throw a running shoulder into them by pressing the Y BUTTON and running into them. To pummel them mercilessly, climb the turnbuckle and press the B BUTTON to punch repeatedly.

WRESTLE DEFENSIVELY!

Sometimes, the best offense is a good defense:

If you find yourself losing a lock up, press the A BUTTON to try to break your way out of it.

If you're being pinned, press any button to try to kick out.

If stunned, press any button to regain your wits.

If your opponent drops you to the mat with his offensive attack, press UP or DOWN on the CONTROL PAD to roll out of the way.

MORE MOVES

ILLEGAL MOVES

During a brawl, outside the ring, or when the referee is knocked out, anything goes! Eye gouges and chokeholds are routine, as well as smashing chairs and buckets over your opponent's skull. To pick up or put down either the chair or the bucket, press the X BUTTON.

To execute an overhead smash with bucket or chair, press the Y BUTTON.

To do a sideswipe/ jab with bucket or chair, press the A BUTTON.

To ring the bell with your opponent's head, press the Y BUTTON out of a lock up, throwing him into the bell.

To eye gouge your opponent, press the LEFT Trigger.

To grip your opponent in a chokehold, press the RIGHT Trigger.

SPECIAL MOVES

Each wrestler has individual signature moves that they use to stunning effect on their opponents. These are situational specialties that each wrestler has perfected. These are often used as finishing moves, the coup de grace they happily administer to their weakened prey. See Wrestler Profiles to learn more about these cruel maneuvers!

MEGAMOVES!

Wrestling action this raw requires a new generation of moves and maneuvers, so W@ RAW" wrestlers have developed an all-new series of unique MegaMoves.

STRATEGIES FOR THE SQUARED CIRCLE

- In tag team, Royal Rumble[®], and Survivor Series[®] bouts, beware of being double-teamed by your opponents—and keep an extra-close eye on your power meter!
- Try mixing up your attack to confuse your opponent! Blend running maneuvers and sure-footed offensive moves! When he thinks you're going to keep it on the ground, go to the air! And when he least expects it, unleash your MegaMove!
